

TECHNO SERVICE

# NENMATSU CHOUSEI

## What is it?

The year-end tax adjustment is used to calculate the difference between the total income tax, and the actual tax amount you have left to pay or be refunded at the end of the year.

# WHY SHOULD I DO IT?

- If you paid more taxes than you should, you get a refund.
- If you don't submit your 2023 Dependents Declaration Form, your income tax for 2024 can become really expensive.

If you paid less taxes than you should have, the difference will have to be paid.

# WHEN IS THE DEADLINE?

## November 21st

The deadline of those who started working in November is different.  
Get in touch for more information.
